PLEASE NOTE:

The plan as been made assuming that churches will be allowed to re-open for congregational worship after the lifting of the national lockdown which is due to end on 2nd December. If the Tier system is re-imposed, under the current restrictions, churches are allowed to meet for congregational worship in all three tier levels. However, should there be any changes made to the rstrictions to be put in place, the re-opening of churches or the conduct of congregational worship will need to be reassessed.

Aslo, a reminder that the current restrictions do not allow for congregational singing inside or on church premises.
